SUMMARY

Results-driven professional with experience delivering reliable software and collaborating across teams. Skilled in building maintainable applications, improving workflows, and communicating clearly with technical and non-technical stakeholders. Seeking a role where strong problem-solving and continuous learning are valued.

EXPERIENCE

Software Engineer — Example Company

Jan 2022 – Present

Remote

- Designed and shipped features used by thousands of active users each month
- Collaborated with product and design to deliver projects on schedule
- Improved application performance and reduced bug reports through testing and code review

Junior Developer — Sample Startup

Jun 2020 – Dec 2021

Toronto, ON

- Built internal tools that reduced manual work for operations teams
- Maintained documentation and supported onboarding for new team members

SKILLS

Languages: JavaScript, TypeScript, Python, SQL

Frameworks: React, Next.js, Node.js

Tools: Git, Docker, CI/CD, PostgreSQL

Soft Skills: Communication, Team collaboration, Problem solving

PROJECTS

Portfolio Website — Personal Project

2024

A responsive website showcasing selected work and technical writing.

- Implemented accessible layout and fast page loads
- Deployed with automated build and preview workflow

EDUCATION

Bachelor of Science in Computer Science — Example University

2016 – 2020

City, Country

Relevant coursework: Data Structures, Algorithms, Databases, Software Engineering.
